#### **6- Read the following passage, then answer the questions:**

The basic function of education is to teach children knowledge, values, and pattern of behaviour they will need in the adult World and will move from generation to another. Education is largely informal that occurs within the family. Family members teach children the values of their society as well as certain basic skills. Parents may teach their children the skills of cooking, food

gathering, hunting and fishing. By this way Children learn the way of society by participating in adult activities.

Formal education which involves instruction by specific trained teachers who follow officially recognized policies, is called schooling. Schools fulfill this function through a set of courses that include such subjects as languages and literature, history geography, mathematics, science and foreign Languages. Also schools develop the critical thinking of students' skills that are necessary to meet their needs in the future.
